

# Exhaust Fumes

Newsletter of Early Day Gas Engine & Tractor Association Branch #245

## *The President's Message*

Hello Branch 245 members and friends! I am thankful for the news that the COVID vaccine has reached Washington State and those that want to take it should have access soon. This makes me hopeful for the future of our club! I'm pleased to have the swap meet and show sign up forms available and after reviewing the current (Feb 1 2021) venue requirements from the state, pending no further set backs, we will be moving forward with our swap meet. With the state's current regulations it will take more staff than we usually have to make it work. Set up will require a vehicle spacing plan, some additional signage, setting up hand wash stations and supplies, a temporary fence and some mowing. Nothing to daunting. In Inslee's phase 1, we can't have a meeting and It's time to start planning, so I invite those interested in being a part of the clubs' activities to come to the park inspection and training March 6<sup>th</sup>.

I realize it's a big ask as we are reliant on the government's regulations in our own state to host events but please send in your club and EDGETA dues to help maintain our insurance coverage. Our membership director is the wonderful Shirley Miller and you'll find the address for dues near the end of this newsletter. The National dues need to be sent by our club treasurer by March 10, 2021. I'm looking forward to seeing you all and working toward a great season. I do ask that you all take care and if you aren't feeling well to stay home. We will keep you posted on happenings. Who's ready to get started?

Questions, give me a call (360) 426-9299  
Dale Fye

President Branch #245

*Board Meeting Minutes* Electronic review and approval of the swap meet signup form by Dale Fye, Jim Beeler, Brian Edwards, Mike Linnel and George Rhodes completed Feb 12, 2021.

*General Meeting Minutes:* None to report

## *Club Member News*

Evie Ockfen, our long time keeper of club history and photos is on the mend from a recent surgery. Please keep her in your thoughts as she continues to recover.

Keep Emmett Tuckness in your thoughts and prayers as he recovers from cancer treatment.

While many of us have been fortunate to avoid it, several members have had the COVID-19 and we wish them a quick and strong recovery.

John Corbin turned 90 recently; spring chicken! Who else is part of the 90s club? Speaking of those that have some history to share, Francette Beeler holds the book Quiet Courage which is about her mother and father.

Quiet Courage is a True Story of a French WWII Bride and her American Soldier.

## Other News

Showgrounds improvements have been happening! Power has been ditched in and a transformer box placed on the South Fence line near the connex. This will be a great addition to our club's events! More planning will be discussed March 6.

Just a kudos to club member Larry Swantak - he has been great help widening the cart path and flattening out a large piece of ground that can now provide more parking, possible vendor space and easier access to the creek side lawn for our events.

245 Building before siding

Fertilizer has been delivered and we are going to try to remain positive about the amount received. It is alot of a good thing. Some will be spread on the grass with a manure spreader; the balance will be relocated to the pumpkin patch prior to the spring swap meet. This fertilizer was donated to Old Iron Park by Phriskey Farms, Shelton Wa.

Pics from our 2019 show.
