

EDGE&TA Branch # 245
ANTIQU FARM ENGINE AND TRACTOR ASSOCIATION

PRESIDENT'S MESSAGE

May 23 2019

Dale Fye, President

We're proud to report that our Spring Swap Meet was a huge success! Thank you all for the extra efforts in advertising this year, I believe it made a difference in our public participation. Matlock's Old Timer's Fair was the weekend after our Swap and we enjoyed seeing many friends there as well. Thank you all for coming out and continuing your support of our hobby, your participation makes a difference! Branch #245 has a couple of work parties on the books with a few more to come to prepare for the July show and things are shaping up. I'm sure the minutes will talk about what's happening in that department – as always I'm counting on you for some good solid help with set up and clean up at our show. There's a list of show time jobs in this newsletter. Thank You to our devoted work party crew members and behind the scenes 245s who are getting any foreseen bugs ironed out in advance. Check the calendar for upcoming dates. I've signed the club up for the Forest Festival Parade June 1st in Shelton. I will be driving my antique truck through with equipment and club banners- join me! I plan to go from there to Port Orchard to support Melanie and the OPAE&TA group at their show that happens the same day. It's important that we participate, invite friends and other clubs, even remind your family members to spread the word about our events and encourage them to come out for a day or camp for the weekend with us. Get the word out and those engines crankin'! See you soon, Dale

Board Meeting Minutes

April 13, 2019 - Board Meeting Minutes We held the board meeting in Cindy Neitzel's kitchen prior to the general meeting which was in John's Man Cave. Discussed whether we should have designated areas for maritime, forestry, and farming. We decided that would not work since some collectors will have displays of each. Earlier Chris Jerue asked to have a designated area for NW built items. He said he would provide signs. After much discussion, we decided that we'd try to provide signs for any display of maritime, farming and forestry as possible. This way each participant can keep their items in their area. We will talk to Chris about signs for NW made items. April's barn girls are already painting; signs and arrows to find potties, engines, tractors, people mover, office, food, etc. There are museums coming to show their exhibits. The 3% Car Club in Shelton will have cars on display, and a new display for each of the 3 days. The 4H kids are being trained on how to judge a car and they will be at the show doing just that. April hopes to have a bee keeper class, one on cheese making, another for soap making, and then one for the guys - babbitt pouring. The Bremerton Square Dancers have said they can provide a demo dance at least once, if not all three days. April has been signing up food vendors as well, the little snack shack, the ice cream guys, hamburgers, June's Goody Trailer, and Natasha (our dinner caterer) will be there with her food van. The plan for meals is as follows: Friday the club will provide beef brisket and the remainder will be pot luck Saturday we will have a catered chicken dinner for \$10. This is the night of the EDGE&TA regional meeting and there will be live music afterwards. Sunday we were thinking we'd have leftovers and pot luck. John Neitzel Dale Fye April Campbell Jim Beeler Nick Huff Judy Huff

General Meeting Minutes

April 13, 2019 - General Meeting Minutes The general meeting which was held in John Neitzel's Man Cave. It was called to order at 11:05am. Thank you to John and Cindy for getting the shop area set up and ready to use. Chris Jerue led us in the flag salute. We had a moment of silence for recently passed "old iron" enthusiasts; Curt Warner, Dave Erkenbrack, Alan Schurman, Norma Brady and Barbara McDonald. Old Business The last work party entailed Brian and George working on the announcers stand, the fencing was removed for the installation of the new pipe fence, Ed and crew worked on the sawmill building, and Larry and Carroll squared up the cedar shakes. Nick and Judy worked on the porta potty door and misc other "stuff" There was 17 for lunch. New Business There will be static displays for the Maritime area and the Logging area and the antique travel trailers plan to have about 8 trailers on display. April reported that the dues have been paid to EDGE&TA, we've bought a fork lift, and we now have new banners for the club. She also mentioned that EDGE&TA announced that the new due date for paying club dues will be March of every year. We talked about how we need to create some new signs and refurbish some old one. April also said that her records need to be audited. Shirley Miller volunteered to do this. Thanks Shirley! A sign up sheet is available for the show. We need people for the gates, office help, someone at the off loading area, and garbage pickup. We need at least 3 people appointed by Ed Murphy/Dale Fye to be safety officers and we ALL need to remember, everyone needs to be safety conscious. And then we need help setting up the tables for the dinners. When you get to the show, please go the club office and sign up. We really need someone to be Show Director. Someone needs to be in charge. Someone needs to be available to the people who sign up to do a particular task. We also discussed the need to have walkie-talkies. The old ones are either lost or broken. (8 new walkie talkies have been purchased since the meeting) There is a new exhibitor sign up form. The form is available on-line on the website and will be in the newsletters prior to the show. This form includes a request for a camping spot. This form will also help us determine a head count for the catered dinner, so please fill one out as soon as possible. We are looking for a blacksmith to have a working exhibit (Bill Apple has volunteered). Justin Beutow is interested in a slowest engine contest. The military group that normally shows will be giving a talk once an hour. The Master Gardeners may be giving a how-to container class - not sure on this yet. The Bremerton Square Dancers would like to perform. Chris Jerue is the national historian for drag saws. He will have an extensive display and if time permits he will give a demonstration or two. The Schedule of Events will be in the form of a handout at the gate and at the office. Let April know if you are interested in giving a short talk or explanation of how an old piece of history works and you will be put on the schedule. Charles Skillman will again have his "What is it?" display. If you have an unusual item, or for that matter any item, that the current age group wouldn't know, let him display it for you and see how many can figure out by themselves what it is or what it was used for - example a dial phone!! There will be a "Kid Zone" with Princess Face Painting, Giant Jenga, Yard Yahtzee and a pile of sand with kid size earth moving equipment provided by Justin Beutow. Saturday night we will have live music.
