Newsletter of Early Day Gas Engine & Tractor Association Branch #245

The President's Message

We appreciate your support during the time of Covid. I am sorry to announce that we will not be hosting our October 31 2020 Swap Meet. It's very frustrating but, after much thought and conversations with board members, it would be irresponsible of us to ask our club members to host an event and put themselves in jeopardy of catching the Covid-19. We feel an error on the side of caution is best and we look forward to a strong 2021 Swap & Show Season!

Congratulations to Morrie for his appointment of NW Director of EDGE & TA. Morrie's contact information **Morrie Robinson, NW Director**
Term: 2020-2023

All my best until we can get together! Dale Fye,
President Branch #245

Board Meeting Minutes None to report.

General Meeting Minutes: Our Branch #245 Club Meeting was held July 18th at the show grounds with many members in attendance. We had a nice flag salute and a long chat about things that aren't happening due to the Covid pandemic. Pamela Murphy held the customary raffle in which Theresa Jenke and (?) each won of very nice handmade place mats and napkins in both John Deere and Farmall Designs. Theresa also won the 50/50 raffle and there was a joke about her needing to stop at the casino on the way home. A special Thank You to our friend and club member Kathy Brunk for the donation of the placemats and napkins. Some members brought tractors and engines for a gas up session after the meeting. A suggestion was made that with the new guidelines that it might be a good idea to be looking for another hand wash station and possibly another handicap restroom. The possibility of canceling the fall

swap meet was also discussed and will be decided at a later date. Submitted by Ben Lyon, Secretary

Club Member News

Jeff Parker has spearheaded the engine shed need this year, inadvertently. If you have driven by the showgrounds lately you may have noticed a new carport tent which is the temporary home to Jeff's big Atlas engine and it's a beast. The tent sits just ahead of where the engine will reside and be fully operational in his permanent display.

Obituary

In Memory of Mahlon M. 'Mike' Moyers

Mike was born March 13, 1929 in Sioux City, IA. His childhood years were spent in various towns in Iowa including Hayward. Mike graduated high school in Sioux City in 1947 and in the Air Force, where he learned his machinist trade at Chanute III, AFB. While in the Air Force Mike was stationed in Lackland Texas and Nome Alaska. He was discharged as S/SGT October 1951. In May 1952 Mike married his sweetheart Betty Garten of Iowa. He got a job with Boeing in 1953 and moved to Kent, Washington. Mike worked for Boeing 33 years, retiring in 1986. He joined Early Day Gas Engine & Tractor association Branch #20 in 1975 as a charter member. He held several club officer positions over the years. Mike had a love of old iron and I swear there was nothing he couldn't make or fix. Mike's other hobbies included BBQ, cook offs, Judging for the Kansas City Barbeque Society in which, 1996 he was awarded their Pit Master. Mike loved to trailer to shows, cruises and he loved visiting family in Iowa. He was preceded in death by his wife Betty who passed in 2011. Around 2013 Mike met Lee Day. Mike and Lee came to shows, traveled and were a cute couple and they enjoyed each other's company. Mike fell ill in May 2020 and passed at the Hospice House in University Place, Wa. from complications from dementia. We will miss Mike's keen wit, friendship and his ability to fix anything. It is because of his expertise many engines our members have are complete and running. Submitted by John Neitzel
