

Exhaust Fumes

Newsletter of Early Day Gas Engine & Tractor Association Branch #245

The President's Message

Hello Branch 245 members and friends! It's turned into quite a busy summer so this newsletter is a little delayed. I hope you are enjoying the sunshine and have been able to get out and enjoy some tractor and engine shows. Our year revolves around our club's July Show which was great, again and always, due to the dedication of our volunteers. It's a balancing act to host a show and also have a chance to participate and enjoy it as well; we are grateful to those among us who have mastered the work hard and play hard skills! April and I had a chance to take in The Great Oregon Steam Up and Lynden's Show and each year we are impressed with the machinery doing displays offered.

I'd like to send some kind thoughts to our members who haven't had the ability to get out and join in the activities this year. We are thinking of you and wish you well!

We have decided to host a meeting and gas up September 11th 2021 at the Show Grounds. Join us, bring something to swap and a tractor or an engine to play with. April will burn something on the grill and we will have a little fun. Questions, give me a call (360) 426-9299 Dale Fye

President, EDGETA #245
